Trade-marks Journal

Vol. 64 No. 3249

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

(1) Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, cyclones and classification, distribution and collection systems relating to cyclones namely mineral processing distributors, collection tanks and steel rubber lined pipes, steel ceramic lined pipes and high density polyethylene pipes, cyclone canisters (2) Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, spiral concentrators. (3) Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petrochemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, sampling systems comprised of wet and dry samplers, vesins, and launders used for the purposes of obtaining a representative sample of a natural product from the earth to assess the mineral components thereof and the reliability of equipment used to extract the minerals and slurry samplers, dry samplers, complete sampling preparations plants, miniature conveyors/feeders.(4) Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, filters and screens for use in mineral processing, polyurethane screen surface panels, wedgewire screens and centrifuge baskets, interstage and trommel screens, sieve bends and housings and custom-made support frames, polyurethane flotation cell accessories, namely rotors, stators and hoods.(5) Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-charnical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, separators, namely magnetic separators, wet drum separators, dry drum separators, earth roll separators, induced roll separators.(6) Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, solid-liquid separation equipment namely centrifuges and filter presses and driers. (7) Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, conveyor belt fasteners and belt cleaning scraper. (8) Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, wear linings, namely high alumina ceramics, cast basalt linings, mill and scrubber liners, composite liners, epoxy adhesives, low friction liners, smooth or profiled rubber impact wear plates, rubber screen panels, rubber chute liners, high alumina ceramic aerator, high alumina ceramic pump impellers.(9)Equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, machine tools and machine coupling (10)Common metals and their alloys; metal building materials, namely, fabricated steel, steel screening inserts and surfaces, and cast iron; materials of metal for railway

tracks; non-electric cables and wires of common metal, steel pipe used to transport water and minerals from on process to another; safes; metal screens and cylinders; ores; armoured tiles.

SERVICES

(1) (1) manufacture, supplier, distributor, wholesale seller and retail seller of mineral processing equipment and products that can be used to separate minerals in the ore from the raw material for the extractive metallurgic, mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel, power generation, and general minerals processing and material handling industries.(2) Manufacture, supplier, distributor, wholesale seller and retail seller of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, cyclones and classification, distribution and collection systems relating to cyclones namely mineral processing distributors, collection tanks and steel rubber lined pipes, steel ceramic lined pipes and high density polyethylene pipes, cyclone canisters (3)Manufacture, supplier, distributor, wholesale seller and retail seller of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, spiral concentrators.(4)Manufacture, supplier, distributor, wholesale seller and retail seller of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, sampling systems comprised of wet and dry samplers, vesins, and launders used for the purposes of obtaining a representative sample of a natural product from the earth to assess the mineral components thereof and thereliability of equipment used to extract the minerals and slurry samplers, dry samplers, complete sampling preparations plants, miniature conveyors/feeders.(6) Manufacture, supplier, distributor, wholesale seller and retail seller of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, filters and screens for use in mineral processing, polyurethane screen surface panels, wedgewire screens and centrifuge baskets, interstage and trommel screens, sieve bends and housings and custom-made support frames, polyurethane flotation cell accessories, namely rotors, stators and hoods. (6) Manufacture, supplier, distributor, wholesale seller and retail seller of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, separators, namely magnetic separators, wet drum separators, dry drum separators, earth roll separators, induced roll separators.(7) Manufacture, supplier, distributor, wholesale seller and retail seller of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, solid-liquid separation equipment namely centrifuges and filter presses and driers. (8) Manufacture, supplier, distributor, wholesale seller and retail seller of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, conveyor belt fasteners and belt cleaning scraper.(9)Manufacture, supplier, distributor, wholesale seller and retail seller ofequipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, wear linings, namely high alumina

ceramics, cast basalt linings, mill and scrubber liners, composite liners, epoxy adhesives, low friction liners, smooth or profiled rubber impact wear plates, rubber screen panels, rubber chute liners, high alumina ceramic aerator, high alumina ceramic pump impellers.(10)Manufacture, supplier, distributor, wholesale seller and retail seller of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemicai, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, machine tools, machine coupling and transmission components (except for land vehicles). (11)Manufacture, supplier, distributor, wholesale seller and retail seller of common metals and their alloys, metal building materials, namely, fabricated steel, steel screening inserts and surfaces, and cast iron, materials of metal for railway tracks, non-electric cables and wires of common metal, steel pipe used to transport water and minerals from on process to another, safes, metal screens and cylinders, ores, armoured tiles.(12)Technical and process consulting services in the field of the extractive metallurgic, miningm quarrying, petro-chemical, food, pulp and paper, paint and textile, steel, power generation and genera/ minerals processing and materials handling industries.(13) Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, cyclones and classification, distribution and collection systems relating to cyclones namely mineral processing distributors, collection tanks and steel rubber lined pipes, steel ceramic lined pipes and high density polyethylene pipes, cyclone canisters. (14) Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, spiral concentrators. (15) Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, sampling systems comprised of wet and dry samplers, vesins, and launders used for the purposes of obtaining a representative sample of a natural product from the earth to assess the mineral components thereof and the reliability of equipment used to extract the minerals and slurry samplers, dry samplers, complete sampling preparations plants, miniature conveyorsifeeders. (16) Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, filters and screens for use in mineral processing, polyurethane screen surface panels, wedgewire screens and centrifuge baskets, interstage and trommel screens, sieve bends and housings and custom-made support frames, polyurethane flotation cell accessories, namely rotors, stators and hoods. (17) Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, separators, namely magnetic separators, wet drum separators, dry drum separators, earth roll separators, induced roll separators. (18) Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, solid¬liquid separation equipment namely centrifuges and filter presses and driers. (19)Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, conveyor belt fasteners and belt cleaning scraper. (20)Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, wear linings, namely high alumina ceramics, cast basalt linings, mill and scrubber liners, composite liners, epoxy adhesives, low friction liners, smooth or profiled rubber impact wear plates, rubber screen panels, rubber chute liners, high alumina ceramic aerator, high alumina ceramic pump impellers. (21)Technical and process consulting services in the field of equipment and materials for use in the extractive metallurgical, industrial mining, quarrying, petro-chemical, food, pulp and paper, paint and textile, steel and power generation and general minerals processing and materials handling industries, namely, machine tools, machine coupling and transmission components (except for land vehicles), (22)Technical and process consulting services in the field of common metals and their alloys, metal building materials, namely, fabricated steel, steel screening inserts and surfaces, and cast iron, materials of metal for railway tracks, non¬electric cables and wires of common metal, steel pipe used to transport water and minerals from on process to another, safes, metal screens and cylinders, ores, armoured tiles.

(2) retail and wholesale services relating to the supply of metallurgical products namely the retail and wholesale services relating to the sale of products to be used in the field of extractive metallurgy which involves the separation and concentration of raw materials with a focus on minerals,

Goods

(1) Remote terminal units namely computers and computing devices that interface and exchange data with operating equipment to record, communicate, monitor and control the equipment and to monitor for alarm conditions used for wellsite and pipeline sites in the oil and gas industry, remote pumpstations, storage tanks, water systems as well as remediation equipment and equipment used in the environmental industries

(2) Wireless I/O namely computer systems and communications systems using radio waves for wirelessly transmitting analog and digital signals from one site to another

(3) Wireless Modems.

(4) Alarm Callout Systems namely systems for receiving information about an alarm condition and alerting individuals of an alarm condition,

(5) LSD Conversion Software namely software for converting legal land descriptions to longitude and latitude coordinate systems.

(6) Remote Video Surveillance Systems namely video-recording equipment for wireless video surveillance.

(7) Electrical Enclosures and Battery Boxes, namely cabinets or boxes to contain and protect electrical equipment, electrical circuits and batteries.

(8) Data Communication Devices, namely wired modems, wireless modems, protocol converters, multiplexers, telemetry and RTU, Satellite Modems, 900 Mhz Spread Spectrum Modems, Terminal Servers (Ethernet to Serial Converters), RS232/RS485 Converters (devices that convert RS232 to RS485).

(9) Power Converters, namely devices for converting electrical energy from one form to another.

(10) Data Loggers, namely devices for recording data over time.

(11) Data Loggers, namely devices for recording data over time.

(12) SCADA Terminal Servers and Multiplexers, namely devices permitting users to connect sensor and data acquisition devices to a computer server and devices that send multiple signals in the form of a single signal to a receiving device that separates and recovers multiple signals from the single signal.

(13) Modbus Multiplexers namely devices that allow multiple serial master channels to share a single serial output channel, namely devices that send multiple signals in the form of a single signal to a receiving device that separates and recovers multiple signals from the single signal.

(14) Electronic Flow Measurement Systems, namely electronic instrumentation and electronic communications equipment used for monitoring well production in oil and gas.

(15) Solar Power Generation Systems, namely solar panels, solar electric power generators, electrical power connectors and wiring for generating electricity.

SERVICES

(1) SCADA Application Services, namely software as a services (SAAS) provider in the field of making available software applications over the Internet for use by third parties to transmit data and monitor and control processes carried out by remote computers, instrumentation, computing devices and computer networks.

(2) Designing, procuring, installing, testing, auditing, management and maintenance of remote computer devices, wireless modems, alarm systems, video surveillance systems, data communication devices, power converters, namely devices for converting electrical energy from one form to another, data concentrators, namely devices that take different data signals and concentrate them into a single signal, data loggers, namely devices that record data over time, SCADA terminal servers, namely devices permitting users to connect sensor and data acquisition devices to a computer server and devices that send multiple signals in the form of a single signal to a receiving device that separates and recovers multiple signals from the single signal, multiplexers, namely devices that send multiple signals in the form of a single signal to a receiving device that separates and recovers multiple signals from the single signal, electronic flow measurement systems, namely systems that measure the flow of electronic signals, and solar power generation systems.

(3) Procuring data communications services for the benefit of third parties, namely procuring of contracts for the purchase and sale of data communications services.
